

Vikas Saini

EXPERIENCE

• FREELANCING

I do freelancing work related to web development. I've built multiple websites for the clients across the world. I have keen eye at design and have good experience developing a website from scratch to the fully deployment. I have made websites with different technologies Like-HTML, CSS, JavaScript, PHP, React.JS, etc.

Web Developer - Stunly.in

I run Web services agency in which I'm responsible for - approaching client to delivering high quality work with considering their budget. I do the web development part in Stunly agency. My team deals with Graphic designing and video editing related work.

PROJECTS

• PORTFOLIO

Recently I built portfolio for myself. The portfolio is made with HTML, CSS, React JS, The main feature of this is 3-d objects added with Three JS which makes the page very attractive.

• NETFLIX CLONE

Netflix Website Homepage clone, it is nearly the same and accurately made with HTML, CSS, JavaScript, etc.

Site Near - Landing Page

I built homepage for popularly known Internet based company called Site Near. It is made just with HTML and CSS.

NORTH STAR TREE CARE Website

An US based Tree care business who needed a website for their business. The website is made with HTML, CSS, JavaScript.
